

## Ceramic and Resin Fountain Collections

### Features and Benefits

- Hand-turned ceramic fountains with brilliant naturally running glazes!
- **Easy set-up and no messy wiring with any fountain.**
- Each ceramic fountain is unique in color and pattern.
- Great for outdoor use during warmer weather months.
- **Over 24 total fountain designs from Alfresco Home development team.**
- Practical for indoor use in the proper setting.
- Remember, all fountains can splash a little....it's a fountain.
- Create a relaxing environment with sounds of water fall.
- All fountains include submersible pumps! Add water prior to running pump.
- Resin fountain collections are designed, cast in a mold.
- **Resin fountains are lightweight, easy to move and easy to set up!**
- Resin fountain design leads to wonderful water fall!
- Fountains made of resin have a hand applied patina finish.
- Many of the resin fountains come with LED or halogen tube lighting!
- **Clean all fountains by changing water, lightly cloth wiping surface.**
- Do not clean with abrasives, detergents and do not use chemical water clarifiers.
- **All fountains must be stored indoors during cold weather.**
- Thank you for purchasing an Alfresco Home fountain!
