

Fabrics

The fabrics of Alfresco Home complete our furniture collections with a sophisticated awareness of style, comfort, and durability. Although our custom cushion program offers hundreds of fabric choices, the following swatches are those fabrics featured throughout our new introductions.

Casual Furnishings and Accessories

Cushion & Fabric Care

Custom cushions are available on all furniture in the Alfresco Home Everwoven™, Wrought Iron, and Cast Aluminum Collections. When ordering cushions, please note the furniture item number and the fabric item number to properly identify the cushion. All cushions are produced to maximize both comfort and durability. High density foam wrapped in Dacron is the construction of the majority of the domestic cushions produced in our custom cushion program.

Please note that the 21 Series Marble Mosaic Collection and Lista Cast Aluminum come with factory-supplied cushions. However, additional custom cushions may be ordered if desired.

Alfresco Home strongly recommends the selection of 100% solution dyed acrylics which are water repellent, stain, soil, and UV resistant!

Go to www.Sunbrella.com for complete outdoor fabric selection and care of fabric instructions.
